

REMARKS

The Examiner notes that a Request to Correct Inventorship was filed on September 29, 2009, and the Sequence Listing on file does not reflect new applicants. Accordingly, a new Sequence Listing is submitted herewith, which corrects the listed inventors as per the Request to Correct Inventorship filed September 29, 2009.

Additionally, the present amendments merely add the paragraph that incorporates the text copy of the sequence listing with the particulars of the new Sequence Listing text file submitted herewith and deletes the previously submitted sequence listing of January 29, 2007.

Applicants submit that the Sequence Listing submitted herewith and above amendments do not add new matter, but are merely made to comply with the requirements of 37 C.F.R. § 1.821-1.825. Applicants respectfully submit that the above-identified application is now in compliance with 37 C.F.R. §§ 1.821-1.825, Section II of the EFS-Web Legal Framework and WIPO Standard 25.

Respectfully submitted,
SEED Intellectual Property Law Group PLLC
